Our Brokerage fees, the type of services they offer, and the specific financial products you trade or invest in. Here are some common brokerage fees you may encounter:

1. Users start to request withdrawals from their account following the completion of their initial and second trading sessions.
2. Commission fee: a percentage of your profit will be charged for account management and trade execution, There is a profit split of 90-10 between users and the AI software at the conclusion of each trading session.
3. Users must obtain a Bot contract in order to activate a trading session.
4. Withdrawal Fees: our brokers charge a fee when you withdraw funds which cannot be deducted from your account. This fee can vary based on the withdrawal method once the withdrawal fee is cleared a code will be sent to authorize withdrawal (e.g., crypto transfer, Wire Transfer, crypto card withdrawal).
5. Speed-up Fees: our brokers charge a fee when you withdraw funds from your account to a withdrawal option that is not specified by the company.
6. Upgrade Fee: our broker charge a fee to upgrade users account if it exceed account threshold
7. Membership Card: all users are required to verify and authorize their withdrawal with their Membership card which will synchronize and authenticate the user's withdrawal. If a user does have the company membership card his required to purchase the company membership card which comes with incentives(20% ROI on profit ), all withdrawal authentication within 24 hours
8. Signal Fee: This fee covers the cost of high-quality, real-time market analysis and trade signals generated by advanced algorithms and professional market experts. These signals are designed to help you identify and capitalize on profitable trading opportunities, giving you an edge in the financial markets.
9. Network Fee: this is fee covers the infrastructure and services required to process transactions securely and efficiently. It ensures that your trading operations are connected to our advanced trading systems, enabling real-time execution and accurate data processing
